

Ed Hawes

MEC President - Negotiations Chair

About Ed Hawes

My involvement as a union activist and volunteer for the past 15 years has been to ensure that management understands the importance of our position as a Flight Attendant and that we are critical to the overall success of our Company. I am honored that you have supported my efforts on your behalf in previous negotiations as well as grievance representation. As your Master Executive Council President, I again join my fellow negotiation team members in being your voice at the bargaining table. I will do my utmost to ensure that we build on the foundation of what we have already achieved in previous contracts and forge new language to address the many important issues that face us in our work rules and compensation. I have learned that skill, tactic and perseverance are need as a negotiator and the team that has been assembled to represent you at the table bring these and other strengths with them. A unite work group is a powerful entity and with you behind us we will obtain an industry leading collective bargaining agreement in the regional airline business.
