

# AFA Safety Committee Update

JAN 12, 2020 MEC AIR SAFETY HEALTH AND SECURITY COMMITTEE

## Safety Committee

Hello fellow Flight Attendant's,

The Air Safety, Health and Security Committee wanted to reach out and remind our workgroup of being vigilant with your safety during your flights, overnights and while commuting.

With the current volatility in our work environment, being aware of your surroundings at all times is crucial.

Mask compliance issues are up 28% from last week and hostile passengers are at 32 percentile of the reports filed.

If passengers are not compliant at the gate, it's in our best interest not to take them with us in the air.

Self-advocacy for your safety, health and security is paramount during this time.

Also, if you are using the Covid19 Notification App on your IMD, please ensure that you use that notification only while on duty and not on your off time (use personal phone on your off time).

Please continue to report issues via the Report It App. This is where AAG receives all pertinent data for decision making.

If you have concerns with 100% capacity and current service levels, report it. If you are experiencing mask compliance issues, report it. If you have any compliance / safety issues on board, use the Report It APP and file a report. Management is not using any emails or calls as data input, only Report It App reports.

Your voice matters!

Warm Regards,

Your Air Health, Safety and Security Committee.
