

AFA Safety Committee Communication

JUNE 1, 2021 MEC AIR SAFETY HEALTH AND SECURITY COMMITTEE

Safety Committee

Hello Fellow Flight Attendant's,

On June 15, 2021 tidying will return on the Q400 (Crossing seatbelts, pick up large trash items and a carpet sweep in a messy seat section). The Contractual Verbiage may be found in Article 25.B, page 145 in the Electronic format.

“ A Flight Attendant's duties shall include the tidying of aircraft in-flight and in-between segments of through flights. Except at RON stops, a Flight Attendant will leave the cabin and galley areas in a condition acceptable to the Flight Attendant relieving Her/him. At RON stops, a Flight Attendant shall not be required to perform cleaning duties.” (Tidying is a required duty only on the Q400)

Flight Attendant's will tidy in conjunction with Fleet performing the actual sanitization and cleaning of the aircraft.

Please be vigilant with good hand hygiene and glove wearing and please report any issues via the Report It App.

Warm Regards,

Your Air Health, Safety and Security and FAB Committee.
